Six Critical Elements –Luke AFB

To accomplish the mission of Luke AFB, the following six “critical elements” are required. These six elements will provide the best margin of safety for both military personnel and civilians while producing the Fighter Pilots and Maintainers, as well as deploying combat support personnel around the globe.

Six Critical Elements (Cont'd.)

Element 1: The ability to land and takeoff in in either direction at Luke AFB.

Element 2: The ability to access the BMGR with with live/training munitions.

Element 3: The ability to fly instrument approaches at Luke Aux-1.

Element 4: The ability to perform patterns and landings at Gila Bend Aux Airfield.

Element 5: The ability to access and utilize the Gladden/Bagdad Military Opening.

Element 6: The ability to access the Military Training Routes throughout the state.

Element 1

The ability to land and takeoff in either direction at Luke AFB.

Element 1 Success Summary

- ✓ Departure Corridor Land Acquisition
- ✓ Special Air Traffic Rule
- ✓ Arizona Military Installation Fund
- ✓ Incompatible Development

Element 1 Success Summary (Cont'd.)

✓ Departure Corridor Land Acquisition

✓ Special Air Traffic Rule

✓ Arizona Military Installation Fund

✓ Incompatible Development
